Please read below for important information to help you understand our coverage. Your
coverage starts on the effective date listed on the Declarations Page.

**Definitions**
**Chronic condition.** "Chronic condition" means a condition that can be treated or managed, but
not cured.

**Congenital anomaly or disorder.** "Congenital anomaly or disorder" means a condition that is
present from birth, whether inherited or caused by the environment, which may cause or
contribute to illness or disease.

**Hereditary disorder.** "Hereditary disorder" means an abnormality that is
genetically transmitted from parent to offspring and may cause illness or disease.

**Orthopedic.** “Orthopedic” Refers to a condition affecting the bones, skeletal muscle, cartilage,
tendons, ligaments, and joints. Orthopedic includes elbow dysplasia, hip dysplasia,
intervertebral disc degeneration, patellar luxation, or ruptured cranial cruciate ligament.
Orthopedic does not include a cancer or a metabolic, hemopoietic, or autoimmune disease.

**Preexisting condition.** "Preexisting condition" means any condition for which any of
the following are true prior to the effective date of a pet insurance policy or during any waiting
period:

PET-DE-Notice-0124-HPI

Requirement 34979
A veterinarian provided medical advice regarding the condition; 
The pet received previous treatment for the condition; or 
Based on information from verifiable sources, the pet had signs or symptoms 
directly related to the condition for which a claim is being made.
It does not include a condition that was covered under a preceding policy period prior to the 
renewal so long as there was no break in the superseding policy periods.
Renewal. "Renewal" means to issue and deliver at the end of an insurance policy 
period a policy that supersedes a policy previously issued and delivered by the same insurer 
or an affiliated insurer and that provides types and limits of coverage substantially similar 
to those contained in the policy being superseded.
Veterinarian. "Veterinarian" means an individual who holds a valid license to 
practice veterinary medicine from the appropriate licensing entity in the jurisdiction in 
which the individual practices.
Veterinary expenses. "Veterinary expenses" means the costs associated with medical advice, 
diagnosis, care, or treatment that a veterinarian provides, including the cost of a drug a 
veterinarian prescribes.
Waiting Period. “Waiting period” means the period of time specified in a pet insurance policy 
that is required to transpire before some of all of the coverage in the policy can begin. Waiting 
periods may not be applied to renewals of existing coverage.

**Determination of Claim Payouts**
Our coverage provides reimbursement up to the applicable annual limit for the actual costs for 
covered expenses that you incur during the policy period, after subtracting your deductible and 
applying the reimbursement percentage, listed on the declaration page.

**Premium Increases Due to Pet Age and Geographic Location**
Insurance plan premiums will increase as the covered pet gets older. Insurance plan premiums 
may increase or decrease due to the policyholder’s geographic location. We will not reduce 
coverage or increase premium due to claims history.

**Policy Limits**
PET-DE-Notice-0124-HPI

Requirement 34979
Reimbursement of covered expenses is subject to the annual policy limit you select at enrollment and is listed on your declarations page.

**Deductible**
We offer a choice of annual deductible options. The annual deductible applies to each policy period. We subtract that deductible amount from the covered expenses before calculating your reimbursement percentage.

**Reimbursement Percentage**
We offer a choice of reimbursement percentage options. After the deductible is met, you are responsible for your portion of the covered expenses in addition to any amounts not covered by the policy. We then pay our portion of the covered expenses subject to the annual limits.

**Policy Exclusions**
This policy excludes coverage for *pre-existing conditions* as defined above and in the policy. Other exclusions may apply. Please refer to the exclusions section of your policy (What is Not Covered) for more information.

**Waiting Periods**
There are WAITING PERIODS that apply before certain coverages are effective. For accident and illness policies, a 14 day illness coverage waiting period applies to the first policy period. Any illness, congenital anomaly or disorder, hereditary disorder and orthopedic illness that occur during or before a waiting period are considered pre-existing and excluded from coverage.

You may elect at your cost to pursue a Waiting Period Health Assessment. If you and your pet meet the requirements of the Waiting Period Health Assessment, then the waiting period may be modified. A copy is available online or by calling customer service.

In order for us to modify the waiting period, you must meet each of the following requirements:
1. A qualifying exam of your pet by a veterinarian that includes an assessment of all body systems and parts;
2. results of the exam need to be documented at the time of exam on our completed Waiting Period Health Assessment Form;
3. the qualifying exam may occur within 3 days prior to or 7 days after your initial policy effective date; and
4. the Waiting Period Health Assessment form must be provided to us within 30 calendar days of your qualifying exam.

If the Waiting Period Health Assessment requirements are met, the waiting period will be waived to either the policy period effective date or the day after the qualifying exam, whichever is later. This waiver does not alter the pre-existing conditions exclusion.

**Preventive Care optional endorsement**

Reimbursements are up to the lower of the amount listed or charged. Some benefits are specific as noted. Preventive benefits are paid according to the schedule of benefits provided with the policy, if applicable, and are not subject to a deductible or reimbursement percentage. See below for a list of available benefits.

Congenital anomaly or disorder. "Congenital anomaly or disorder" means a condition that is present from birth, whether inherited or caused by the environment, which may cause or contribute to illness or disease.

Hereditary disorder. "Hereditary disorder" means an abnormality that is genetically transmitted from parent to offspring and may cause illness or disease.

Orthopedic. “Orthopedic” Refers to conditions affecting the bones, skeletal muscle, cartilage, tendons, ligaments and joints, including, but not limited to, elbow dysplasia, hip dysplasia, intervertebral disc degeneration, patellar luxation and cranial cruciate ligament ruptures but not including cancers or metabolic, hemopoietic or autoimmune diseases.

Preexisting condition. "Preexisting condition" means a condition for which any of the following are true prior to the effective date of a pet insurance policy or during any waiting period:

- A veterinarian provided medical advice regarding the condition;
- The pet received previous treatment for the condition; or
Based on information from verifiable sources, the pet had signs or symptoms directly related to the condition for which a claim is being made. It does not include a condition that was covered under a preceding policy period prior to the renewal so long as there was no break in the superseding policy periods.

**Renewal.** "Renewal" means to issue and deliver at the end of an insurance policy period a policy that supersedes a policy previously issued and delivered by the same insurer or an affiliated insurer and that provides types and limits of coverage substantially similar to those contained in the policy being superseded.

**Veterinarian.** "Veterinarian" means an individual who holds a valid license to practice veterinary medicine from the appropriate licensing entity in the jurisdiction in which he or she practices.

**Veterinary expenses.** "Veterinary expenses" means the costs associated with medical advice, diagnosis, care or treatment provided by a veterinarian, including, but not limited to, the cost of drugs prescribed by a veterinarian.

**Waiting Period.** “Waiting period” means the period of time specified in a pet insurance policy that is required to transpire before some of all of the coverage in the policy can begin. Waiting periods may not be applied to renewals of existing coverage.

**Determination of Claim Payouts**
Our coverage provides reimbursement up to the applicable annual limit for the actual costs for covered expenses that you incur during the policy period, after subtracting your deductible and applying the reimbursement percentage, listed on the declaration page.

**Premium Increases Due to Pet Age and Geographic Location**
Insurance plan premiums will increase as the covered pet gets older. Insurance plan premiums may increase or decrease due to the policyholder’s geographic location. We will not reduce coverage or increase premium due to claims history.

**Policy Limits**
Reimbursement of covered expenses is subject to the annual policy limit you select at enrollment and is listed on your declarations page.

**Deductible**

PET-NH-Notice-0124-HPI

Requirement 34979
We offer a choice of annual deductible options. The annual deductible applies to each policy period. We subtract that deductible amount from the covered expenses before calculating your reimbursement percentage.

**Reimbursement Percentage**
We offer a choice of reimbursement percentage options. After the deductible is met, you are responsible for your portion of the covered expenses in addition to any amounts not covered by the policy. We then pay our portion of the covered expenses subject to the annual limits.

**Policy Exclusions**
This policy excludes coverage for pre-existing conditions as defined above and in the policy. Other exclusions may apply. Please refer to the exclusions section of your policy (What is Not Covered) for more information.

**Waiting Periods**
There are WAITING PERIODS that apply before certain coverages are effective. For accident and illness policies, a 14 day illness coverage waiting period applies to the first policy period. Any Illness, congenital anomaly or disorder, hereditary disorder and orthopedic illness that occur during or before a waiting period are considered pre-existing and excluded from coverage.

You may elect at your cost to pursue a Waiting Period Health Assessment. If you and your pet meet the requirements of the Waiting Period Health Assessment, then the waiting period may be modified. A copy is available online or by calling customer service.

In order for us to modify the waiting period, you must meet each of the following requirements:
1. A qualifying exam of your pet by a veterinarian that includes an assessment of all body systems and parts;
2. results of the exam need to be documented at the time of exam on our completed Waiting Period Health Assessment Form;
3. the qualifying exam may occur within 3 days prior to or 7 days after your initial policy effective date; and
4. the Waiting Period Health Assessment form must be provided to us within 30 calendar days of your qualifying exam.
If the Waiting Period Health Assessment requirements are met, the waiting period will be waived to either the policy period effective date or the day after the qualifying exam, whichever is later. This waiver does not alter the pre-existing conditions exclusion.

**Preventive Care optional endorsement**

Reimbursements are up to the lower of the amount listed or charged. Some benefits are specific as noted. Preventive benefits are paid according to the schedule of benefits provided with the policy, if applicable, and are not subject to a deductible or reimbursement percentage. See below for a list of available benefits.
